University of Massachusetts at Boston

Commencement 1978

Harbor Campus
Thursday
June 1, at 2pm
THE UNIVERSITY MACE

Symbols of authority and power, maces, were originally hand weapons designed for use against armor. Topped by the flame of knowledge, the University Mace has the University Seal as a focal point and unifying element. Tassels of maroon and white hang from the shaft of fourteen rods of black walnut, symbolizing the fourteen counties of the Commonwealth, held together by a gold band, which symbolizes their unity.

The head of the Mace is gold plate over highly polished brass. Complex curves radiating from the hub in which the Seal is centered reflect light in constantly changing patterns, symbolic of the many-faceted environment of University life. The Mace is borne by the Faculty Co-Chairperson of the University Assembly.

ACADEMIC COSTUME AND REGALIA

Academic Gowns represent a tradition which comes down from the Middle Ages. At that time they were a common form of dress and were retained by the clergy when the laity adopted more modern styles. The early European universities were founded by the church; the students, being clerics, were obliged to wear the prescribed gowns at all times.

The usual color for academic gowns in America is black, although Yale masters and doctors may wear Yale blue and Harvard doctors of philosophy are authorized to wear Harvard crimson.

The bachelor's gown has long pointed sleeves and is worn closed. Caps, originally round, are now mortarboards; hoods, originally cowled, were attached to the gown and could be slipped over the head for warmth.

Caps are black but the colleges have tassels of different colors: College of Arts and Sciences is gold; College of Public and Community Service is red; and the College of Professional Studies is blue; candidates for the Master's degree wear black.

This program is for ceremonial purposes only. The official list of graduates is maintained by the University Registrar.

A message to Graduating Seniors, their Families, and Friends

From the Faculty Staff Union

As teachers and librarians at UMass/Boston, we share your pride and happiness on this Commencement Day. We extend our congratulations to all of you.

We believe that UMass/Boston offers first rate educational opportunities to its students. From its inception, it has been a unique university, carrying out its urban mission creatively.

The quality and identity of this university are now being challenged, however. An arbitrary Administration has rapidly been usurping the traditional rights of faculty and students and attacking those features which have made UMass/Boston so unique and exciting.

What Are Our Major Concerns?

The Faculty Staff Union, the elected representative of the faculty, librarians, and academic staff, has since last fall been trying to negotiate a contract with the University which will both protect its members and maintain the quality of education at UMass. The Administration has hired an out-of-state negotiator to ensure that negotiations move at a snail's pace. Virtually no progress has been made all year. We believe that all of you—alumni, parents, future college students, friends of public higher education—have a stake in these negotiations. We invite your support in seeing that UMass remains a vital public university for future generations of students.

The highhanded attitude of the Administration towards negotiations is symptomatic of the increasing concentration of power in the hands of a few administrators, distant from the educational process. This year, over one-third of the Assistant Professors who had met the rigorous tenure requirements of their departments were unjustly fired by the Administration. The mid-day free period was unilaterally abolished by a single administrator after the faculty-student Senate unanimously urged its retention.

One of the special features of UMass/Boston has been the small size of most of its classes. But each year class size has crept up, so that the original educational vision is in jeopardy. For the faculty, this represents a speed-up without any compensation. For students, it means a deterioration in educational quality. The Faculty Staff Union is fighting for a reasonable student/faculty ratio, while the Administration argues that class size has nothing to do with teaching load. Each item in the FSU's proposed contract would strengthen educational opportunities for students, while virtually every item of the Administration’s would weaken them.

While faculty rights have been whittled away, faculty salaries have declined disastrously in the face of inflation. Our salaries have declined in purchasing power by 35% in the last four years. In the face of this, the Administration has unilaterally withheld the paltry 2½% raise voted by the legislature (although the administrators have not withheld the raise from themselves). Compared with higher education institutions in
the country as a whole, salaries for Assistant Professors have declined from the 77th percentile to the bottom 10th. This precipitous decline not only is an injustice to teachers and their families. It also threatens the continued ability of the university to attract and keep good teachers and scholars.

Why We Are Demonstrating

We are reaching the limits of our patience. The Administration continues to stall in negotiations, and we are faced with the prospect of yet another year without a contract. Since the Administration has refused to bargain in good faith, we feel we must demonstrate the determination of the faculty and inform you of our struggle. We shall not disrupt the graduation ceremony, but we want to make our united presence felt and to publicize the important issues at stake. Therefore:

1) We have asked faculty members and students to demonstrate their unity and determination by wearing special armbands. Some will participate in the official procession; others will stand on the side with a union banner and signs.

2) We have established a union information table near the library, and we invite you to discuss these concerns with us.

3) We have called a press conference to publicize our objectives.

4) We invite both students and members of their families to support us in two ways. First, we urge you to sign the statement of support below and to return it to the FSU Information Table. Second, we encourage you to write to Governor Dukakis (State House, Boston MA) and to the Chairman of the University of Massachusetts Board of Trustees, Joseph P. Healey (One Washington Mall, Boston, MA 02108), urging them to see that negotiations proceed speedily and that faculty get a fair contract.

If you agree, please sign this statement of support and return it to the FSU Information Table in the back near the library.

I support the efforts of the Faculty Staff Union at UMass/Boston to negotiate a contract protecting faculty rights and educational excellence.

Signed:
